BF | **Braden Frazer**

ABOUT ME

With a unique, blended skillset between creative and technical, my passion is fusing the gap between design and code, bringing mockups to life as responsive user experiences.

EXPERIENCE

designIQ • Gannett • ReachLocal
Jul 2019 – Present | Web Developer

Built and maintained reusable WordPress sites, themes, templates. Collaborated with designers to convert website mockups into functional code. Participated in all phases of the website fulfillment cycle, from product design, implementation, quality assurance and testing. Tested, debugged, and refined software to produce the required web property on both desktop and mobile media. Recommended software and processes to reduce operating time and process.

Mar 2018 – Jul 2019 | Website Services Consultant

Resolved client website support cases post-launch and implemented requests or changes in a swift manner. Partnered in the migration of over 1700 websites from a proprietary platform to the Wordpress platform; mitigating issues, squashing bugs, and QA testing throughout the process. Supported the ReachEdge SaaS solution by troubleshooting technical issues and educating US & Canadian potential product usage and features.

ESPN
Sep 2017 – Nov 2017 | Production Operations Intern

Programmed, facilitated and monitored communications between the control room and studio. Prepared microphones and placed them on high-profile talent for shows such as SportsCenter. Cleared to work independently on the shows First Take and Econet/Redes without any supervision.

EDUCATION

Texas A&M University
2012 – 2017 | Bachelor of Science in Computer Science

Minored in Art and Mathematics. Graduated Cum Laude.

PROJECTS

Pokedex
Pokemon Encyclopedia | Javascript, React, Tailwind, APIs

Pokedex app based on the Pokemon series games, built in React. The app includes the full collection of 1000+ characters, sourced by the awesome PokeAPI.

Weathrr
React Weather App | HTML, CSS, Bootstrap, React, APIs

Weather conditions app built in React. The location name, current temperature, humidity, and conditions are pulled and displayed from OpenWeatherMap's API.

Spokes Bike Shop
WordPress Demo Site | Wordpress, Bootstrap

Demo site made to practice WordPress theme design and development. WordPress theme created on a heavily modified free version of the Bootstrap 4 WordPress Theme.

Old Main Brewery
Website Freelance Project | HTML, CSS, Javascript

Freelance project for a brewery based in College Station, TX. Designed 5 different webpage templates as mockups and then implemented the designs in HTML5, CSS3, and Javascript.
